## **PAT FARMER**

### ***Pole to Pole***

Australia's Pat Farmer recently completed a 21,000km run from the North Pole to the South Pole, raising funds for the Red Cross. It was the longest and arguably most dangerous run ever made.

“Pat Farmer’s diary *Pole to Pole* chronicles the highs and lows of an extreme athlete, and reveals how he kept going through some of the most inhospitable places on earth. Whether you run or not, his account is sure to inspire, amaze and motivate.”

**Refreshments provided.**
