

Obituary

Dr Prabhat Raj Sinha

Sharing the extremely sad news that my father Dr Prabhat Raj Sinha has taken his last breath & passed away. A doctor for over 50 years, serving the community in many roles including as past President Sri Mandir temple & past President United Indian Association, and a devoted husband & father, his legacy lives on forever and I have everlasting memories of his ever-smiling face, his eternal wisdom and love.

He was in his beloved homeland India when he took his last breath, and we are going to immerse his ashes in the Holy Ganges. We will share details of his funeral when we return to Australia. Please respect the family wishes to not receive any phone calls at the moment, but messages are ok.
